

I/UVC Series

Product Description

The I/UVC Series temperature sensor is a system specific sensor. The unit incorporates a semiconductor sensor to provide a linear voltage output over the temperature range of 40 to 150°F.

The units will be offered in Room, Room with Override, Room with Setpoint, Room with Setpoint and Override, Duct, and Immersion configurations. The Override is supplied with an LED indicator. The setpoint indication sticker is Warm | Cool.

Product Specifications

Output	559.6 mV DC at 75°F	Temperature Range	40 to 150°F
Accuracy	+/- 1% of Full Scale	Indication	Red Led Indicator
